Fruit Classifier (Transfer Learning)

Enter fruit name

Add Class

✓ banana
✓ apple

Capture Image | Train Model | Predict

Prediction: apple | Confidence: 92.70%

Elements | Console | Sources | Network

top | Filter | Default levels | No Issues

- [ ] Hide network
- [ ] Log XMLHttpRequests
- [ ] Preserve log
- [ ] Eager evaluation
- [x] Selected context only
- [x] Autocomplete from history
- [x] Group similar messages in console
- [x] Treat code evaluation as user action
- [x] Show CORS errors in console

```
Live reload enabled.                                   index.html:132
MobileNet loaded                                       script.js:27
Captured: banana                                       script.js:64
Uncaught (in promise) Error: Error in oneHot: depth must be >=2, but it is 1   tfjs:17
Captured: apple                                        script.js:64
Captured: apple                                        script.js:64
